

Introduction

All India Institute of Medical Sciences Gorakhpur is an autonomous institute of national importance established by the Ministry of Health & Family Welfare, Government of India under the Pradhan Mantri Swasthya Suraksha Yojana (PMSSY). The institute was established in 2019 under Phase-IV of the PMSSY scheme.

The institute has been set up with the objective of addressing regional disparities in the availability of quality tertiary healthcare services and strengthening the infrastructure for medical education in underserved areas of the country. It seeks to promote excellence in undergraduate and postgraduate medical education, nursing, and allied health sciences, while fostering a culture of innovation and research. AIIMS Gorakhpur is committed to providing state-of-the-art healthcare services, maintaining the highest standards of patient care, and ensuring transparency, efficiency, and accountability in its functioning. The institute also plays a pivotal role in capacity building, human resource development, and advancement of medical knowledge in alignment with national health priorities.

Objectives of AIIMS

- To develop a pattern of teaching in undergraduate and postgraduate medical education in all its branches so as to demonstrate high standards of medical education to all medical colleges and other allied institutions in India.
- To bring together in one place educational facilities of the highest order for the training of personnel in all important branches of health activity.
- To attain self-sufficiency in postgraduate medical education.

Functions of AIIMS

- Undergraduate and postgraduate teaching in medical and related physical and biological sciences.
- Nursing and dental education
- Innovations in education
- Nurturing healthcare professionals for the country
- Research in medical and related sciences
